

Have you ever faced issues with limited collaboration between teams, making document sharing confusing and difficult? Do you often struggle with managing multiple versions of the same document? Are you finding it tough to meet strict regulations like GDPR or HIPAA while handling documents? Do manual workflows and approval processes slow down your operations? Are you concerned that these processes increase the risk of errors, making document management and compliance feel overwhelming?

Traditional paper-based document management systems are slow, error-prone, and hard to manage, creating workflow bottlenecks. Consultants spend an average of 1.8 hours per day just searching for documents, which leads to lost productivity. With 50% of processes still relying on manual workflows, operations become 20-30% slower, while the risk of errors increases by 12-15%. These inefficiencies make document management a major challenge for organizations. Sutherland Sphere is a document management solution designed to overcome these challenges by leveraging advanced artificial intelligence.

Why Sutherland Sphere?

Sutherland Sphere is an advanced Document Management Solution that transforms how organizations handle and manage their documents. Packed with advanced AI and automation capabilities, Sutherland Sphere empowers teams to effortlessly manage vast volumes of files while streamlining complex workflows. With its robust security features and seamless integration capabilities, Sutherland Sphere ensures consistent and compliant document management, while simultaneously improving collaboration and boosting productivity. Sutherland Sphere combines cutting-edge intelligence with flawless precision to meet the evolving needs of today's businesses.

Sutherland Sphere – An intuitive, powerful, and reliable solution addressing complexities and the compliance of document management.

Sutherland Sphere was built with the full spectrum of document management needs in mind. With a comprehensive view of document workflows and the challenges that hinder efficiency, Sutherland Sphere is designed to drive operational excellence. This advanced platform is favored by users for its intuitive interface, robust functionality, and ability to streamline complex processes, boosting productivity and ensuring consistent results.

CENTRALIZED CONTROL & SECURE ACCESS

The Document Storage & Organization module offers centralized file storage with advanced categorization and version control, ensuring easy document retrieval. Security features include encryption and access control to protect sensitive documents from unauthorized access.

AI-POWERED SMART DATA EXTRACTION

At the core of the Sutherland Sphere is Sutherland Extract which leverages AI-powered OCR to convert scanned images, PDFs, and other formats into structured data, eliminating manual entry, reducing errors, and speeding up processing.

AUTOMATED WORKFLOW MANAGEMENT

The Workflow Management module enables streamlined document routing and approvals with automation and real-time tracking, reducing manual effort and keeping stakeholders updated.

ACCESS CONTROL & SECURITY

The Access Control & Security module protects documents with role-based permissions, ensuring only authorized users can view, edit, or share them, maintaining data integrity and confidentiality.

ACTIONABLE INSIGHTS AND DASHBOARD

The Reporting & Analytics module offers detailed insights into document usage and workflow performance, enabling businesses to optimize processes and boost productivity.

Results Delivered

- Sutherland transformed a global manufacturer's invoice processing with automation, boosting efficiency by 40% and improving accuracy and compliance.
- Sutherland helped a major provider streamline 2.5 million documents from seven years' worth of data with advanced search and automation, boosting efficiency and scalability.

Transforming your document management experience starts with the right solution. Sutherland Sphere redefines how you handle documents by offering an AI-driven platform that simplifies, automates, and secures every aspect of document management. Packed with advanced features, Sutherland Sphere ensures your operations are efficient, secure, and compliant with industry standards.

Don't settle for good enough—experience document management done right with Sutherland Sphere.

Unlocking Digital Performance.

Delivering Measurable Results.
